

Using the TV system

1. Screen (no ariel so no terrestrial TV)
2. Samsung DVD BlueRay player (HDMI2) and USB socket
3. Humax UK FreeSat (HDMI1)
4. Cables for IPod and HDM3
5. Wifi Router
6. Orange French Cable TV

Use the small Samsung remote for both DVD and TV screen

Source

- Choose **HDMI1** for UK Freesat TV (NOT 'TV' as that means TV with a normal ariel)
- Choose **HDMI2** for DVD
- Choose **ORANGE** for French TV

Top tip - If you can't see the source you want then it probably Means that you've forgotten to switch **on** the box

1 TV Screen **ON**

2 DVD box **ON**

3 UK Freesat box **ON**
(Use this remote for all UK Freesat TV controls)

Programme and Volume buttons

A - To watch/browse French TV make sure the white box is on. This will overtake everything else so keep it off until you want to browse.

B - Press *Guide* button and then *choisir un jour* = choose a day. *Aujourd'hui* = today then go down to the time you want.

C - Scroll up and down and press *OK* on something you fancy and it will give you more info. Scroll to *Regarder* = watch. (*Changement en cours* = downloading)

Top tip - if *Regarder* does nothing you've probably not chosen something that's actually showing now cos you're still thinking in English time ...
... done it & have the T-shirt! :)

The language is set to *Version Originale* so e.g. Simpsons will be in English. French subtitles will come up if available. If this setting has been lost then press the *MENU* button and scroll down to *Mon Compte* and then to *Mes Pr f r s* then it's pretty straight forward.
